On the 3rd of March 1924 Mustafa Kamal declared the nullification of the Islamic State (Al-Khilafah) after misleading the people that he had been forced to declare the same at the peace conference at France as the unfortunate price for the withdrawal of allied troops from Istanbul and in order to declare an independent Turkey. In fact the decision was in accord with a devious plan which had been prepared previously by the British who had planned for Mustafa Kamal to be commander at that time, to withdraw the Islamic forces from Al-Sham (Syria) and to leave it vulnerable for British and French forces. By nullification of the Khilafah, Turkey, as the centre of the Islamic state, officially abdicated from her position of authority over all its provinces, which are the Muslim countries we see today.

Moreover by this deceleration all Muslim countries came under the colonization of the enemy and were governed by secular systems in all aspects of life and those provinces have now been divided into numerous countries and divided states.

Since 1924 Muslims have been living under non-Islamic law panting behind the slogans of Nationalism, Patriotism and Tribalism and have left out nothing of the concepts of their masters such as Liberalism (Western Freedom), Sovereignty for man (ie Democracy) and Sovereignty for the ruling party (ie Socialism) which has been the cause of tremendous corruption, weakness,

them. During those 72 years the call for Islam, for the re-establishment of Al-Shari'ah, and in order for Sovereignty to be for none but Allah has never abated. The Muslims in general and the Ulama' and the Islamic movements in particular have contributed much work to improve the situation of the Muslim Ummah which has taken many forms such as Tabligh, Jihad, Culturing, Education, Conferences, lectures, building Mosques and good deeds etc. which have culminated in purifying and crystallizing their thoughts and concentrating their minds on working to re-establish the Khilafah which will ensure Sovereignty for Allah (SWT) and implementation of Islam internally and conveying of the message of Islam as a system and complete way of life for the whole of humanity.

It is therefore not strange that the existing regimes in Muslim countries have become bankrupt and have failed to stop their accelerated decline, their epidemic corruption and their imitation of the western way of life. We should not be surprised to witness that the Ummah is searching for Islam to heal its wounds and its pain.

The signs of revival are becoming stronger in all Muslim countries, awareness about Islam as the solution is now a matter of fact and public opinion among Muslims is in favour of re-establishing the Khilafah to govern by Islam in all aspects of life.

This meeting is merely a humble

the understanding of the meaning of Khilafah and its obligation and rules in order to synchronize our work to re-establish the rightly guided Khilafah as the Prophet Muhammad (SAW) predicted for our time and to fulfill the divine promise from Allah (SWT) Who says: "Allah promises those who believe and indulge in good deeds to grant them the Khilafah on earth, the way He granted it to those before, to make their Deen dominant and to change their status from one of fear to one of security in order to follow Allah's commands and not to associate with Him anything, whoever rejects this are sinners"

**O' Muslims, arise, and contribute to work for Allah's Deen to fulfill your duty and remove the burden from your necks.**

**O' Muslims, the book of your Lord calls you, your Ummah cries for your help and eternal paradise awaits you.**

**O' Muslims, Do not be among the sinners or those who are asleep nor among those who have lost all hope of the mercy of Allah (SWT).**

We must remember that the destruction of the Khilafah was the most distressing incident this century, let the re-establishment of the Khilafah be the most wonderful incident.

May Allah (SWT) help us in our task and honour us to be among those who will be blessed with Al-Khilafah.

**PRESS RELEASE..(RALLY AGAINST OPPRESSION)..PRESS RELEASE**

## **ISRAEL, THE CANCEROUS ZIONIST ENTITY** **MOST OPPRESSIVE TERRORIST STATE ON EARTH**

Israel has been created with pre-determined specification to serve a strange alliance of dogmas and interests established about two centuries ago in Europe of the "enlightenment"

- Protestant (Christian) fundamentalism, which advocates the return of the "Jews" to the holy land as a pre-condition for the return of Christ and the advent of the latter days!
- A subconscious desire for revenge of the mature European nations for the trauma of the defeat of the crusades, early in European childhood!
- A solid colonial interest of the emerging European secular-capitalist powers, who needed a base to weaken and destabilise the Ottoman Empire (the Islamic state) and to control the trade routes through the Middle East.
- The "Jews" were, at first, object of these desires and designs, without any say or participation. Later in the 19th century certain Zionist Jewish factions, representing a rising "Jewish" nationalism, termed Zionism, in imitation and sympathy to the fashionable nationalism of the days, joined the secular-capitalist camp. The majority of the Jews remained sceptical, with a qualified minority, mainly conservative and religious Jews, expressing ferocious opposition to the "Godless" Zionist secular design

The rise of German power in the late 19th century, British counter plans to subdue Germany and the First Great War created conditions well suited for the destruction of the Caliphate and the establishment of Israel. In 1917 the Balfour declaration was issued a promise from the un-authorized to the non-deserving! At that time only a few thousand Jews were living in the holy land.

The British Empire, having the mandate of the League of Nations for Palestine, chose to break the trust of its mandate and clandestinely open the floodgates of Jewish immigration to the holy land. In 1948 Israel became a reality! Millions of Palestinians lost their homes, rights and dignity. Islamic sovereignty in the blessed country was broken and rule of Islamic law was terminated.

The American finance-capitalist oligarchy inherited Israel, the British ready-made base in the Middle East. Moreover excessive Zionist influence in the US made Israel de-facto an American state. All Israeli affairs are regarded as internal American affairs. Britain gave birth, but America became the nursing mother!

The establishment of Israel is not only a criminal act of genocide against the Palestinian people. It is also an act of war against Islam and Muslims all over the world. The cancerous Zionist entity is a life threatening menace for the Jews living there, placing them between the fronts in the fire line. Moreover it is currently the greatest danger for the world peace!

Israel, being a cancerous entity in foreign environment, is continuously involved in acts of state terrorism, provocation to its neighbors, and wars!

# THE DECLARATION OF THE RALLY AGAINST **OPPRESSION** SUNDAY 3rd AUGUST 1997

The Public Trial held on 3<sup>rd</sup> August 1997 at London-Trafalgar Square discussed the current wide-spread oppression, corruption, social and moral decadence all over the world as necessary consequence of man-made law i.e. the greatest crime in the universe and the ultimate oppression. The Rally concluded by declaring the following

1) All ruling regimes in the world, foremost the ones in the Muslim world, are systems of disbelief (Kufr), oppression (Zulm), transgression (Fisq) and illegitimate and must be removed and replaced by the Islamic ruling system Al-Khilafah.

2) We have unshakable faith in the truth, the superiority of Divine Revelation, i.e. The Qur'an and Sunnah and its completeness and sufficiency to establish the Rule of Islamic Law i.e. The Khilafah system, the only system capable of administering happiness and dignity for human beings and the only cure for the ills of the modern world. The establishment of the Khilafah is therefore the first priority and the first vital issue for the Muslim Ummah!

3) The UN, World Bank, IMF, NATO, as well as all other international organisations and alliances are manifestations of the oppression of man-made law and tools in the hand of US imperialism and its alliances giving "wrong" the appearance of "right", "crime" the cover of "international legitimacy" and "hegemony" the mask of "co-operation". Therefore we must reject their presence and expose them and those countries who are their members.

4) The Presence of western forces in Muslim countries is illegitimate and a criminal act of aggression. They must withdraw immediately or face expulsion at the hands of Muslims.

5) The Presence of the terrorist state of Israel in Palestine and The Hindu occupation of Kashmir are illegitimate and must be eliminated. Therefore we denounce the Israeli occupation of Palestine and its genocide of the Palestinian people, the occupation of the Brahmin and its genocide of the Kashmeeri people, the Russian, Georgian and Armenian invasions and the encroachment of the rights of Muslim people in Abkhazia, Azerbaijan, Chechniya, Tatarstan, Circassia and their brethren in Trans-Caucasia and the American Occupation of the holy lands in Arabia. All these are criminal acts of war against Islam and Muslims and clear violations of the rights of sovereignty and self-determination of Muslim people. It is therefore legitimate to counter-act these crimes by all means i.e. Militarily, financially, intellectually and politically.

6) The present boycott, sanctions and embargo against the people of Iraq, Libya and other Muslim countries are prime examples of the oppression, hypocrisy and double standards of the major Western powers. It has shown its ugly face and exposed the fallacies of the so-called "International Law and its Legitimacy" and made the Muslim Ummah aware about the true objectives of the anti-Islamic Kufr powers, namely to subdue the Ummah, break its resolve, annihilate its identity and loot its wealth. This major criminal act will not go unpunished!

7) We call on all Muslims to combat those evil forces of Israeli, Hindu, Russian or American occupiers, and to confront Western capitalism and imperialism and their lackeys in the third world countries. For Muslims it is their Islamic duty to perform Jihad, prepare for Jihad, support Jihad with all means i.e. Physically, financially and verbally.

8) Muslims in the UK will continue their struggle against the corruption of man-made law and the distortion of Islam by the media. The Muslims pledge to continue calling society to Islam, commanding good, forbidding evil and working sincerely for the domination of the world by Islam and the supremacy of Allah's commands on earth, which is inevitable.

## Election 1997 - Voting Is Prohibited(Haram)!

Q: What is the Islamic verdict concerning selecting a candidate, or standing as a candidate or voting for a candidate in Legislative Parliaments?

By Sheikh Omar Bakri Muhammad, The Principal Lecturer of The London School of Shan'ah

Before asking what the Islamic verdict is concerning parliamentary elections, be it selecting a candidate, or standing as a candidate or selecting or voting for a deputy, we ought to shed light on parliaments and the work they do, in order to answer such questions with a sound and clear understanding of the situation.

The idea behind establishing legislative parliaments emanates from the democratic concept which says that the rule is for the people and by the people, and that the people are the legislative source; democracy means that all the people form the state, and that everyone has the same rights as the others in appointing the government and choosing the rulers and passing bills of legislation. So people have the right of legislation and to choose the leaders and have the absolute power in running their affairs. The people are any group of persons living in one country regardless of their race, colour, creed or language.

Since all the people cannot practically form the legislative body, they choose deputies to represent them as the legislative and executive body, these deputies form the house of commons i.e. parliament. Parliament is the body that selects the ruler or the head of state who will in turn select the cabinet and hand out the ministerial portfolios.

The work of parliaments can be summarised in two points:

1. Legislation and passing laws.
2. To give the government a vote of confidence, or no confidence.

As for legislation, parliaments in general and particularly in Europe legislate non Islamic laws, and in some cases laws completely contradictory to Islam; they legislate laws and systems of unbelief (kufr), this action is forbidden by Islam. This in Islam is known as "Rubbubiyah" (lordliness). Allah (SWT) says: "They take their priests and their rabbis to be their lords in derogation of Allah...." [EMQ 9-31]

Islam considers this as resorting to the rules of non-Islam in which we have been ordered to disbelieve. Allah (SWT) says: "Have you not turned your vision to those who declare that they believe in the revelations that have come to you and to those before you? Their real wish is to resort together for

though they were ordered to reject it. But Satan's wish is to lead them astray far away (from the Right)." [EMQ 4 :60]

This action is not the right path for believers, Allah (SWT) says: "If anyone contends with the Messenger even after guidance has been plainly conveyed to him, and follows a path other than that becoming to men of Faith, We shall leave him in the path he has chosen, and land him in hell - What an evil refuge." [EMQ 4 :115]

Legislation has not been approved in Islam by any text of Shan'ah, so it is rejected, as narrated in the hadith of Muslim on the authority of Ayesha: She said that the Prophet (SAW) said: "Whoever performs an action not ordered by us it is rejected". As for giving a vote of confidence to rulers who are elected to implement these kufr laws, this is an approval or acceptance of other than what Allah (SWT) has decreed, and is a cooperation on him (oppression) and Allah (SWT) has forbidden this for believers.

This is the Islamic verdict on parliaments and their functions as well as on the function of the members of parliament (including deputies and congressmen).

The Islamic verdict on the appointment of parliamentary candidates for legislative parliaments or to vote for candidates for legislative parliaments is prohibited (Haram) whatever the intention was or the objective behind such actions.

Therefore being a minister in an kufr (unbelieving) regime, or enjoying some legislative powers or giving the ruler a vote of confidence is forbidden, because the means which lead to haram ends are haram.

Standing as a parliamentary candidate is also prohibited in Islam (Haram) whatever the intention was or the objective behind such actions.

As for those who wish to become deputies (MPs) in order to take part in parliamentary business such as voting on any legislation (whether for or against) or giving the ruler a vote of confidence etc., this is totally forbidden and rejected; Muslims should not vote for them because it is a means that leads to forbidden ends (haram) and helps and strengthens mischief, sin and

not one another in sin and transgression, but keep your duty to Allah. Lo! Allah is severe in punishment" [EMQ 5:2].

### Declaration

Al-Muhajiroun's Declaration in answer to the press conference of UKACIA on Election 1997 and British Muslims:

1. UKACIA only represent some Muslim organisations but not the mainstream Muslims
2. Calling Muslims to Vote in the forthcoming general election is asking Muslims to do what Allah (SWT) has prohibited (i.e. Haram).
3. UKACIA are acting independently without consulting the mainstream Muslims, Scholars or Muslim organisations.
4. The issues raised reflect the discrimination and oppression of Muslims, however these are symptoms of a society which is ruled by Man-made laws.
5. The true representative of Muslims would call for the eradication of Man-made laws, in which injustice is inherent, and would call for the implementation of Islamic law. This is the only way to create a just and fair society as defined by Allah (SWT) in which all people Muslim or non-Muslim have their lives, belief, mind, lineage and wealth protected.
6. The corrupt nature of the political process is clear for all to see. Those who attempt to mislead Muslims should fear Allah and know that they will be accounted for their misdeeds.
7. The alternative is an Islamic consultative body whose main aim is to please Allah (SWT) through working to make Islam dominant not by participating in prohibited acts or reconciling Islam with non-Islam, rather to co-operate in action to change society by intention not integration.
8. Until we start to recognise each others efforts and co-operate in good deeds and become fully independent from the control or influence of any regimes in the world whether directly or indirectly we will never be in a position to be able to dictate influence or bring change.

PRESS RELEASE..(RALLY AGAINST OPPRESSION)..PRESS RELEASE

# THE OPPRESSION OF MAN-MADE LAW

Fundamental principles of reason compel us to believe in the existence of one Creator of the Universe The Self-sufficient, Eternal, All-knowing, All-powerful God Divine revelations confirms that God created man for no other purpose except to submit to, worship and obey Him

Both reason and revelation affirm that the first duty of man is towards God, his Lord and Master All other duties and responsibilities are subordinate to, and derived from this ultimate duty

History proves beyond any possible doubt that God DID exercise his right of sovereignty in revealing laws to a series of noble Messengers culminating in the LAST revelation to Muhammad, the final Prophet and the seal of Prophethood to mankind! Those revelations, specifically the last one, express not only the Divine Sovereignty, but also the Divine Grace and Mercy They regulate human life in a balanced and dignified way, free from any racial, national, tribal, class, clan, group or gender bias It addresses human beings as such dignified human being and nothing less!

The last revelation is complete, leaving no room for any man-made law, man-made ethic or man-made morality It regulates all aspects of life spiritual as well as material, matrimonial as well as international, private as well as public. Over a millennium of Islamic rule and dominance of the central region of the world is clear and irrefutable evidence

Secularism, in contra-distinction from the above, is based on the assumption of human sovereignty Man has come of age and is able to make his own law, define for himself good and evil and determine his own Morality!

The West fell prey to this dangerous fiction, followed by most of the rest of humanity leading to untold misery, wars and moral bankruptcy under classical Capitalism, then Socialism and various forms of Fascism, and back to neo-Liberal Capitalism! Laws were made by the powerful for the powerful against the weak!

But this was not the major crime of Secularism Greater are its crimes in Voiding of the human existence from its meaning and purpose and the transgression against the ultimate and original right of God to be acknowledged, appreciated, loved and worshipped These are indeed crimes, of cosmic magnitude, leading, necessarily, to the loss of eternal happiness!

## MAN-MADE LAWS ARE THE ULTIMATE OPPRESSION AND THE GREATEST CRIME IN THE UNIVERSE

PRESS RELEASE..(RALLY AGAINST OPPRESSION)..PRESS RELEASE

# THE OPPRESSION OF THE UN AND OTHER "INTERNATIONAL ORGANISATIONS"

The United Nations is the successor of the League of Nations which in turn succeeded the European Family, falsely called the "International Community" For three centuries this "International Community" remained a close European and Christian organisation It did not allow any of the non-Christian states to join. In order to organise themselves, some conventional principles and rules were adopted and referred to, falsely, as "International Law"

After the second world war America and all the other capitalist states, which in the past were Christian states, did not consider any new laws or principles to be added to either International Law or the UN, even after the extension of the UN to encompass most states on earth, in service of the American hegemony The old conventional principles of the Christian states, which later became secular capitalist states, remained the only laws and principles imposed upon all the human groups of the world, without giving the slightest consideration to what the other states carried in terms of doctrines, religions, cultures, customs and ideas, actually all of that was looked upon with contempt and disrespect.

Therefore, the "International Community" remained, in reality, as it had been before, the Family of the previously Christian states i.e. the secular capitalist states of today, determined to impose the world view and way of life of Secularism on all, even after other states had been allowed to join

The UN, together with all its sub-organisation, foremost the World Bank and the IMF, is neither a truly nor a just "international organisation", because

- It has adopted ONE ideology Secular Capitalism
- The superpowers have the sole influence, the nuclear weapon monopoly and ultimate decision power (veto power),
- It act as a single world-wide state, using military force to enforce the wishes of the powerful against the weak and the disadvantaged,
- It looks with disrespect and contempt down on other doctrines, religions, cultures, customs and ideas, and interferes in local and national legislative matters of sovereign states and nations, hence breaking their right of self determination This discrimination peaks in the mistreatment of Islam and Muslims!

The UN and all its sub-organisation, foremost the World Bank and the IMF, are the embodiment of ultimate oppression

- The oppression of man-made law (Secularism)
- The oppression of capitalist imperial powers US, UK, France, Etc.
- The oppression of usury and debt based capitalist economy (World Bank and IMF)
- The oppression of discrimination against races, cultures, nations, doctrines, religions, customs, and ideas versus the "white", "Christian", secular European "master"!

## THE UN IS THE ULTIMATE OPPRESSOR OF MANKIND
